PROJECTS

Pokemon Pokedex:

Front end built with **React**, **Tailwind CSS** and **Framer Motion** displaying data from the PokeApi with subtle animations, light/dark mode toggle with React-hook forms and Joi for validation.

Star Wars Wiki:

Front end with **React** and **Tailwind CSS** connecting to and displaying data from an API to the user with a light/dark mode toggle.
Back end API with **Node.js** with **Express.js** using **JWT** and **Bcrypt** for authentication & authorization before connecting to & storing information into the **Firebase** Database with full CRUD functionality.
